# FLIGHT SCHOOL 101 EXPERIENCE

Classic Flyers can now offer a Flight School experience to Intermediate age and above students that integrates with the New Zealand School Curriculum. The Flight School 101 experience consists of a classroom style setup in a Hangar surrounded by real aircraft used to illustrate and demonstrate the following subjects:

- The Theory of Flight – how airplanes fly
- Aircraft Controls and the forces involved
- Basic Cockpit instrumentation
- How Piston & Jet Engines Work
- Experiment with models on the effect of flight controls
- Demonstrate the rocket flight

The Flight 101 class is complimented by a tour of the Museum where students identify the different aircraft types, wing styles and engines discussed in the Flight 101 class. Students will be able to get inside and interact directly with many exhibits to enhance the learning experience. Students will be given the opportunity to try out our Flight Simulator exhibit.

## Agenda:

- 9.30am Arrival at Classic Flyers
- 9.35am Welcome and Safety Talk
- 9.40am Flight School 101 Lecture
- 10.45am Morning Tea (Bring your own or purchase in café)
- 11.15am Guided Tour and Activities in the Hangar
- 12.30pm Lunch or Return to school

*This agenda is only a guide and we can adapt it to suit class sizes*

Lunch is hosted in Torpedo Park next to the Museum Apron (If wet we provide indoor seating). Younger children will enjoy the new Torpedo Park play area which has been extended and upgraded.

We can supply quiz sheets and Flight 101 Study Guides to your students that can be used as an Information Treasure Hunt and are happy to send a copy electronically prior to your visit.
